

The “Scheduling a registration appointment for subsequent application” platform of the Asylum Service is on air

As of today, Monday 22/8, the production run of the “Scheduling a registration appointment for subsequent application” platform shall be implemented, which is addressed to asylum seekers whose initial application has been finally rejected. In fact, the platform is addressed to those Third Country Nationals (TCNs) who wish to submit a new claim for international protection in our country, after their initial application has been definitively rejected.

The platform is developed and available in: English, Albanian (Sqip), Arabic, Bengali, Dari, Farsi, Georgian, Kurmanji, Pashto, Turkish, Urdu, with the possibility of expanding to more languages, if the need arises in the future.

The platform can be accessed through the following link:

<https://apps.migration.gov.gr/international-protection-registration>

In order to properly apply the scheduling and to facilitate your assistance, please arrive at least 30 minutes before your scheduled registration appointment, holding all of your identification documents.

With the start of functioning of the above procedure, the Skype app that was previously in force for booking registration appointments will be deactivated.

Finally, we remind you that, for all interested persons who have never visited the Asylum Service Offices and have never submitted an application for international protection up to now, it is now possible to get registered at the following points: Malakasa Camp and Diavata Camp, following the procedure “Scheduling an initial registration appointment” described in the platform, which you can also access through the above-mentioned link (<https://apps.migration.gov.gr/international-protection-registration>).
